FRANCE WANTS INTERNATIONAL ARMY AND POLICE FORCE TO PROTECT HER

RAISES POINT THAT BEING LOCATED IN CENTRE OF EUROPE HER LAND IS FIRST TO BE INVADED

MAY PROVE SNAG IN HARMONY PLAN

By ROBERT J. BENDER
(United Press Staff Correspondent)

PARIS, Feb. 13.—The question of the establishment of a huge international military and naval police force under the League of Nations was to be thrashed out today at a meeting of the League committee. The proposal is understood to have been submitted by the French. The American and British delegates are said to oppose it. The belief was expressed today that this new article might prevent acceptance of the constitution at the general peace congress tomorrow.

President Wilson plans to leave Paris for home tomorrow night. In this event the date would have to be changed as the President has not only been selected to read the constitution at the plenary session but wishes to take a copy back to the United States with him. A special train has been ordered and every plan has been made for his departure tomorrow night. The proposal for a big international army and navy is said to have been included in one of the two new articles proposed by the French. It is understood they wish the army to be stationed in France as a guarantee against further aggression by any nation in the belief that France would suffer as it is in the center of Europe.

PARIS, Feb. 14.—President Wilson in his address to the League Association for the Society of Nations at the Murat Palace declared he was convinced that the work on the League of Nations would not be completed before his return to the United States. "I am convinced that after my return to my country we will celebrate its completion at least in its advanced stage," he said.

PARIS, Feb. 13.—"Whispering propaganda" with which Americans became familiar during the war was believed today to be responsible for the change of attitude toward the American delegates in Paris. The suspicion was growing that German agents were sowing the seeds which produced the wild rumors and created a false impression of President Wilson's attitude. There has been several significant developments in this connection. Many persons believed the change in the French attitude due to efforts of German agents.

PARIS, Feb. 13.—Whether a general session of the peace conference will be held this week was still doubtful today. At the conclusion of this morning's meeting of the "League of Nations" committee, seven articles of the redrafting of the constitution had been completed.

The question of an international police force proposed by the French had not yet been reached when the committee resumed its session at 3:30 this afternoon.

RYLE MILLER HOME

After having spent about three months in active service at the front with the celebrated National Guard company from Indiana, Pa., a unit of the Iron Division, Ryle Miller is shaking hands with his many friends here the past day or so. Ryle was with the division when it swept the South bank of the Marne free of the Huns and helped chase them from there back of the Vesle river in those memorable days during the latter part of July when the tide of the world war began to turn. After crossing the Vesle he was severely gassed and put out of active service. Mr. Miller is a former erployee of the Kurtz Stationary store and a son of Superintendent Miller of the Kurtz factory.

A "GOOD INDIAN" IN TOWN

John Frampton, the well known Punxsutawney photographer, was a witness at court several days this week. Mr. Frampton is one of the most successful hunters and fishermen to be found in this section and knows more miles of game cover and specially fine trout streams than about any other man in Jefferson county. In fact he is the hunter and fisherman first and really devotes his spare time to the phoographic end of his worries. Like all real nature lovers he is a dead game sport wherever you meet him as his hosts of friends throughout this section of the state will gladly testify any time.

CLEARFIELD BOYS ARRESTED AT PATTON

Two Third Ward boys who had been working in Altoona, were taken into custody at Patton yesterday charged with stealing an automobie from H. H. Replogle, an Altoona druggist, and the attempted holdup of a farmer named Nagle. Both boys are members of highly respectable families and their escapade was a great shock and surprise to their friends here.

NON-SUIT IN DOLBY CASE

I pray you think of me,
For as you love your country
So am I stuck on thee.

—or—

Thrift Stamps are green
War Savings, blue
Love backed up by saving
Makes our dreams come true.

Oh Valentine, my Valentine,
Love and patriot I combine,
In favoring my suit, to make me bolder,
Uncle Sam has stamped this folder

To little folks, along with love
I send some little gifties;
My Valentine I'm sure you'll be
When you see these nifty thrifties.

Loved I not honor more"——
A gallant lover truly said
On going to the war.

These Saving Stamps I send to thee,
A Victory Valentine,
In them my love and honor
I truly intertwine.

—or—

To a Baby

I'm sending greetings, Baby Mine,
A Thrift Stamp for a Valentine;
I know you'd say, if you could speak,
You'd like another every week!

And laid away
Against the Day
When thou'lt be mine.
This token of the way I build
To keep the chest for ever filled
Shall bring to you
Love's greeting true—
My Valentine!

MANY CONVERTS AT BAPTIST REVIVAL

The special service for the Sunday school and the young people generally at the First Baptist church last evening was inspiring and very largely attended.

Rev. Smith took for the subject of his sermon "But He was a Leper". In his discourse the preacher pointed out that it is possible for one to be a "prominent" citizen and still be out of harmony with God. His comparisons were forceful and pointed and were very well received.

The work of Rev. Smith at this revival is nightly bearing abundant fruit. Last night's professed conversions were in the neighborhood of twenty.

These meetings will continue all week and likely extend into next week. All who can do so should attend these services.

THREE CUSHION CHAMPION KEEPS BUSY

It will be the seventh time that Kieckhefer has defended the title since winning it from De Oro a year ago. Within twelve months he has twice defeated challengers R. L. Cannefax and P. E. Naupome, and won once each from challengers C. S. Otis and Charles McCourt.

WAS REAL "GENERAL JAIL DELIVERY;" LAW DEMANDS ONE LIFE AND TOTAL OF 65 YEARS TO EXPIATE CRIMES COMMITTED

The last chapter but one in the life of William "Bush" Brown, the convicted murderer of Walter Moore, was enacted in the court room at 10 o'clock this morning when Judge Corbett, of Brookville, who presided at the trial, called Brown before the Bar for sentence.

When asked if he had anything to say why sentence should not be pronounced Brown stated that he thought he should be given another chance. Judge Corbett replied that he had nothing to do but impose sentence at this time. He thereupon sentenced Brown to death in the electric chair, directing that he be confined in the Clearfield county jail until such time as the governor of the commonwealth shall order his removal to the death house at Rockview for electrocution.

Following imposition of the sentence Brown asked if he would have opportunity to make an appeal to the Board of Pardons and Judge Corbett assured him he would have every opportunity.

In addition to Brown some fifteen other prisoners were haled before Judge Bell for sentence and court house habitues after looking the crowd over decided it was the hardest looking aggregation ever before assembled in the Temple of Justice at any one time, and there was lack of the usual expression of sympathy at the severity of the sentences imposed.

When the death penalty was imposed upon Mr. Brown every person in the crowded court room rose to his feet and it was indeed a sad and solemn scene.

Following this action Judge Bell assumed charge and in his usual brisk, snappy manner announced that the court was now ready to impose sentences. District Attorney Arnold arose and moved that waiting criminals be disposed of.

Antonio Giordino, alias Tony Gargole, who entered a plea of guilty to murder in the second degree for the killing of Andrew Davis at DuBois, when called for sentence and asked if he had anything to say before sentence was imposed, shook his head no. Judge Bell then said: "Antonio Giordino, you have entered a plea of guilty to second degree murder, which the commonwealth has seen fit to accept; while your crime is justly styled second degree, it is so near first degree that we will have to sentence you accordingly. The sentence of the court is that you pay a fine of $1 and costs and undergo imprisonment at labor in the western penitentiary for a term the minimum of which shall be fourteen years and the maximum eighteen years.

Oliver and Alice Sanford the East End colored residents, convicted on three counts of the crime of pandering, were each sentenced to pay a fine of $1 costs of prosecution and undergo imprisoment at labor in the

HERE ON CHARITY MISSION

O. H. Midler, of Bradford, is in Clearfield today in the interest of the Bon Air and Grandview tuberculosis sanitariums, which are located at Bradford and Oil City, respectively. These two institutions have always received patients from the south western end of the county but have never made an effort to get support from this region. Though several people have been making small voluntary contributions there has never been any soliciting done. The plant is to be much enlarged and two new buildings have already been added.

To the extent of their limited resources in these two sanitariums, patients are cared for whether with or without financial means. This means that public contributions are necessary to carry on the work.

The calls for the work done at these institutions have been greatly increased by the influenza epidemic and by returning soldiers. Soldiers whose lungs have been scarred by poisonous gas fall a victim to tuberculosis, and these sanitariums have been called upon to treat many such patients.

While in this community Mr. Miller will call upon a number of our citizens. We bespeak for him an interview and a kindly interest in the institutions he represents.

EXPRESS COMPANY STARTS CAMPAIGN FOR EFFICIENCY

The nation wide campaign inaugurated by the American Railway Express company to bring about better methods of packing and marking express shipments, began today with the first of a series of meetings of express employees to be held at this place during the month of the drive. At convenient periods throughout the day, Agent H. F. Reese called together groups of his co-workers and urged them to put their full force behind the comprehensive campaign now under way and to work with shippers in accomplishing decisive results in bettering the express service.

Vehicle men, transfermen and office employes were each addressed by the agent who made the most urgent appeals for their cooperation and keen interest in the drive. There is room for improvement everywhere, he state. Owing to conditions brought about by the war, he admitted, the express service had not been as good as the company expected to make it. But with this obstacle removed and every expressman doing his part, the way has been cleared for a very marked change for the better.

In urging the men to seek the cooperation of the shippers in the drive, the agent brought to the attention of the drivers the necessity of giving them all the aid possible in bringing their packing and marking methods up to the required standard. It was acknowledged that the manner of packing and marking varies with the comodities, but the question of whether a shipment is in proper condition for shipment and whether it can be carred to its destination, must be left to the judgment of the driver who has been thoroughly instructed on the rules and regulations.

After the "Four Minute Speeches" agent H. F. Reese announced the following as a committee for the "Better Service Campaign:" William Carr, N. M. Innes, A. M. Bumgardner and Miss Hannah Hughes; they represent each branch of the organization and were instructed to keep watch on the conditions of business as it passes thru terminas and to call personally on shippers whose consignments need attention.

The popular idea that a person loses consciousness in the course of a fall from a great height seems to be refuted by the experience of aeronauts. Parachutes, although designed to open after 200 feet, frequently do not open under 1,000 or 1,500 feet, and during this drop the men tied to them are quite conscious.

Evidently Judge Bell believes in making the world, or that part of it we call Clearfield County, safe for Democracy and everything and everybody else, and put his belief into action by handing out some very salty doses to criminals this morning. It is up to every community to take care of its own lawbreakers and dangerous characters and with the action of the Court this morning, Clearfield County has gone part way, at least, with her share of the general purging of the citizenship lists of the nation that is now under way.

VITAL ISSUES DRAWN

"It is fortunate for the future of the American Republic that the issues between the Republican and Democratic parties have become clearly defined upon vital fundamental principles of government. Not since the issue was drawn upon the question of the indissolubility of the Union has there been presented a more clearly defined or more important issue than that presented today.

"The Democratic party stands for Internationalism—the exaltation of world-interests above National interests—the subordination of the interests of America to the interests, or supposed interests, of the aggregate nations of the earh. The Republican party, having absolute confidence in the superiority of American institutions and in the ability of the American people to find the best solutions for social and economic problems, believes that not only the welfare of America but the welfare of the world will be best promoted by leaving this nation free to work out its own destiny, through which it will set an example for emulation by all the rest of the world.

"As the Democratic party would sink the nation in Internationalism, so that party would sink the individual in Socialism. It would paralyze the efforts of the individual, to equalize the supposed interests of the aggregate—attempting to place all upon an equality of reward regardless of differences in effort and accomplishment. The Republican party believes that aggregate advancement is no more nor less than the sum of individual advancement, and that every reasonable inducement must be offered to encourage development of the individual, not at the sacrifice of the rights and interests of other individuals but with ultimate resultant good to all, through the accomplishments of the most capable and most energetic. Discouragement of individual initiative, enterprise and effort, as proposed and practiced by the Democratic party, must inevitably retard the development of the whole. The progress of this nation has been measured by the attainments of its most highly developed individuals in every line of endeavor—its Websters and Lincolns and Roosevelts, its Fultons and Edisons, its Hills and Harrimans, its Morses and Bells, Schwabs, Burbanks, and innumerable other individuals who typify developmet under the stimulating influences of OPPORTUNITY. Socialism measures its attainments in terms of Bergers and Liebnekts, and Trotzkys and Lenines.

"As natural accompaniments of its Internationalistic and Socialistic proclivities, the Democratic party tends toward paternalism, government ownership and free trade. Because of its Nationalism, and in harmony with the spirit of Americanism, the Republican party believes in protection of American producers against unfair competition with cheap products of other lands. It opposes government ownership or operation of industrial enterprise as calculated to destroy initiative and impede progress.

"We shall abandon nationalism when we abandon individualism. We shall adopt internationalism when we adopt communism. We shall cease to have rivalry among nations when we cease to have rivalry among individuals. We shall cease to have contests among nations when we cease to have contests among individuals. We shall have both communism and internationalism when we attempt to set aside the law of the survival of the fittest."

Just Rub Famous Forkola over Throat and Chest—Relieves by Inhalation and Absorption

You simply apply a small quantity of Famous Forkola over the throat, chest and back covering with a warm flannel cloth. The body heat releases the ingredients that are inhaled in the form of vapors, while the penetrating oils and fats are quickly absorbed through the pores, healing and soothing the tired, aching throat and chest. All night long the good work goes on, loosening the phlegm, soothing the inflamed membranes and opening up the air passages.

Go to your druggist and ask for a small jar of Famous Forkola and begin the treatment at once. Thousands have used the Forkola treatment instead of nauseous internal dosing for colds and catarrh, sore throat, bronchitsi and even incipient peumonia.

Your druggist can supply you.

SHEEP RAISING IN PENNSYLVANIA NOW ON THE INCREASE

The revival in the interest in the sheep raising in Pennsylvania during the past three years has brought about an increase of approximately 60,000 sheep on the farms, and promises to soon place the industry on a basis of twelve years ago when there were over a million sheep in the state.

Figures in 1910 showed that there were 83,074 sheep on the farms of the state, but the industry was then going through a yearly decline that was showing a shortage of approximately three per cent. in numbers each twelve months. The total had been reduced from over a million and each year the decrease followed until it has reached a total of 806,000 as the estimated total sheep in 1916.

Early in 1916 the Pennsylvania Department of Agriculture and other agricultural interests negan a drive for more sheep in Pennsylvania and as a result an actual increase in totals was shown in the first year, the estimated total at the beginning of 1917 being 810,000 sheep. Throughout the year the increased interest in sheep saw the addition of new flocks and the totals for January 1918 were 820,756. During the past year the high price paid for wool and the increasing cost of the sheep brought about more interest than ever before and the total number of sheep now estimated in the state is 862,243.

During the past year the reports show that in fifty-three counties there were increases in the number of sheep as compared with a year ago. One county, Pike, reported a decrease and the other counties showed approximately the same number as January 1918. In many sections sheep were introduced for the first time, but the interest was shown to be growing in all sections with every prospect that it will continue. Washington and Greene counties, the two big sheep centers of the state, showed increases of four and nine per cent. respectively, while in other counties the total increase was represented from one to twenty-five per cent. over a year ago.

In 1910 the value of the 883,074 sheep was estimated at $3,924,144.00 and the value of the wool clip at $1,202,623.00. In 1916 the value of the 806,000 sheep was estimated at $4,352,400.00 and the value of the wool $1,350,531.00. Then came the movement for more sheep, the shortage of wool and the beginning of real growing interest in an industry that could be proserously followed in many sections of the state. The 810,000 sheep in 1917 showed an estimated value of $5,670,000.00, a jump in value per head from $5.40 to $7.00. The value of the wool jumped from thirty-four cents a pound to sixty-two cents a pound with a total value of $2,528,236.00. In 1918 the value per head jumped to $10.65 representing a total value for the 820,756 sheep of $8,747,215.00. The average price of wool went to sixty-seven cents a pound and showed the wool clip value of $2,857,349.00. In two years the value o fthe sheep and the value of the wool has been doubled.

Starting 1919 Pennsylvania has an estimated total of 862,243 sheep. The average value per head on the first of January was $10.90 showing a total value of $9,412,922.00. The finest fleeces of wool ever shown in Pennsylvania were on display at the recent State Farm Products Show at Harrisburg and there is every indication of continued interest in the industry.

He says the Rhine country is beautiful and every hill is covered with grape vines for miles and miles at a stretch.

He says his outfit was sent to Linzig to get some old German trucks and found they were some trucks. Tires of iron, not a bit of rubber on them and his truck kicked and broke a couple of his fingers. He says they have 1400 German trucks to move out of Germany and only six companies to do the work. When they finish this job they will be sent home as these men were all recruited from tank crews. He wouldn't take anything for his experience over there."

ODD FELLOWS TO CELEBRATE

Washington, D. C., Feb. 13—Lodges of the Independent Order of Odd Fellows throughout the United States and Canada are actively preparing for the celebration next spring of the centennial anniversary of the order. Founded April 19, 1819, in Baltimore, by Thomas Wildey and four others, the order has become one of the greatest fraternal societies in the world. It is purely an American institution, fully 75 per cent. of its present total membership of more than 2,000,000 members being residents of the United States and Canada.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Isaac Black of North Pine street received an envelope today from the dead letter branch of the New York post office in which was enclosed a letter that he had mailed to his son, Dorsey A. Black who is with the A. E. F. in France. Across the face of the enclosed envelope was written "Wounded 9|29—A. P. O. Tours: n. c.—10|28." Mr. and Mrs. Black are somewhat mystified at the receipt of this letter as in the last letter they had from their son, dated November 28th, he mentioned having been in the hospital with an attack of the grippe but said nothing about being wounded.

Mrs. S. M. Bickford of Lock Haven, Pa., is the guest of Mr. and Mrs. Webb Karstetter on South Filbert street.

This evening an interesting and hotly contested game will be bowled on the local alleys when the C. R. office team clashes with the garage team.

CORP. FINK PRAISES SALVATION ARMY

Camp Merritt, N. J.

Dear Mother

Well here we are again in the good old U. S. A. and it will be some time before they get me away again.

We had a fine time in New York city. Just as soon as the people saw the ship coming they came out to meet us with a band all kind of good eats. The Red Cross and Salvation Army, the K. of C. and the Y. M. C. A. gave us any thing that a poor hungry doughboy wanted to eat. The Salvation army sure has done its bit for the soldiers of the A. E. F. They were right up there where the big German guns were tearing hell out of everything they served the boys with hot chocolate and eats. I know of many of the boys who have passed the big drum up on the street corner and refused to pitch a nickel on it who would now give them the last dollar they own. Well as news is scarce I guess I will close for this time. I think I will go to the city tonight.

HARRISBURG MAN HERE NO ADJUSTMENT AS YET

So far as can be learned nothing satisfactory resuted from the meeting on Tuesday night between the committee representing the local public steam consumers, the officers of the Penn Public Service corporation and Mr. Ehler of the State Public Service commission, of Harrisburg. The session was held in the council chamber of the Public building and lasted from 8 till 12 o'clock.

As might have been expected the corporation was prepared for the meeting and was ready to answer questions. The committee could not present the consumers' side to the best advantage because the consumers themselves in a number of instances failed to hand over the data asked for, and some others who did turn over a report did not have it complete. A proposition was made by the Penn Public Service corporation as a means of reaching an adjustment. It will be reported by the committee to the consumers at a meeting to be called at an early date. —Philipsburg Journal.

There's no use suffering from the awful agony of lame back. Don't wait till it "passes off." It only comes back. Find the cause and stop it. Diseased conditions of kidneys are usually indicated by stiff lame backs and other wrenching pains, which are nature's signals for help!

Here's the remedy. When you feel the first twinges of pain or experience any of these symptoms, get busy at once. Go to your druggist and get a box of the pure, original GOLD MEDAL Haarlem Oil Capsules, imported fresh every month from the laboratories in Haarlem, Holland. Pleasant and easy to take, they instantly attack the poisonous germs clogging your system and bring quick relief.

BRONCHIAL TROUBLE FOR 16 YEARS, AND COUGHED CONSTANTLY

Then Mrs. Crawshaw stopped her cough so quickly it alarmed her.

"I had suffered with lung trouble, bronchial trouble and asthma for 16 years. In January, 1904, I had an unusually severe spell, resulting in pneumonia and was confined to my bed for 4 months. Then I began to mend, but my cough never left me.

The following October, I tried Milks Emulsion. After taking it a few days my cough gave way, and ceased entirely after taking another bottle—so sudden, in fact, that I became alarmed. Getting over my fear, I took 6 bottles more. For 9 months previous I had coughed night and day, but my cough ceased entirely. For 16 years I have had the best medical assistance and used all kinds of medicines until I became skeptical. But the results from Milks Emulsion were nothing short of marvelous."—Mrs. W. S. Crawshaw, 1436 Grand Ave., Des Moines, Iowa.

For quick results in bronchial or throat troubles, coughs, or hard colds, Milks Emulsion is really remarkable. The first dose helps to build up and strengthen the tone of the tissues.

Milks Emulsion is a pleasant, nutritious and corrective medicine. It relieves constipation, natural bowel action, together with all need of pills and purgatives. It promotes appetite and quickly puts the digestive organs in shape to assimilate food. As a builder of strength Milks Emulsion is highly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, bronchitis and tuberculosis of the throat. Stomach trouble and indigestion are promptly relieved—usually from the first day.

Milks Emulsion is the only solid emulsion made, and is palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and $1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewarts Drug Store.

SCHOOL NOTES

Wednesday morning after opening exercises in chapel Dr. Reeves addressed the students on saving and banking. This talk will probably influence many to open accounts in the School Savings Bank which was reopened this week.

An unsuccessful attempt to move the cannon in the rear of the High School to the front was made Wednesday evening by the class of 1918.

The basket ball team journeys to Altoona Friday to play the Altoona High School. Clearfield High is not worried as to the result of the game, after winning from such teams as Williamsport and Brookville.

It will have little of sports or social activities, as they were few and far between, but this deficiency will be made up in the form of original stories, jokes, etc.

FRANCE WANTS INTERNATIONAL ARMY AND POLICE FORCE TO PROTECT HER

RAISES POINT THAT BEING LOCATED IN CENTRE OF EUROPE HER LAND IS FIRST TO BE INVADED

MAY PROVE SNAG IN HARMONY PLAN

By ROBERT J. BENDER
(United Press Staff Correspondent)

PARIS, Feb. 13.—The question of the establishment of a huge international military and naval police force under the League of Nations was to be thrashed out today at a meeting of the League committee. The proposal is understood to have been submitted by the French. The American and British delegates are said to oppose it. The belief was expressed today that this new article might prevent acceptance of the constitution at the general peace congress tomorrow.

President Wilson plans to leave Paris for home tomorrow night. In this event the date would have to be changed as the President has not only been selected to read the constitution at the plenary session but wishes to take a copy back to the United States with him. A special train has been ordered and every plan has been made for his departure tomorrow night. The proposal for a big international army and navy is said to have been included in one of the two new articles proposed by the French. It is understood they wish the army to be stationed in France as a guarantee against further aggression by any nation in the belief that France would suffer as it is in the center of Europe.

PARIS, Feb. 14.—President Wilson in his address to the League Association for the Society of Nations at the Murat Palace declared he was convinced that the work on the League of Nations would not be completed before his return to the United States. "I am convinced that after my return to my country we will celebrate its completion at least in its advanced stage," he said.

PARIS, Feb. 13.—"Whispering propaganda" with which Americans became familiar during the war was believed today to be responsible for the change of attitude toward the American delegates in Paris. The suspicion was growing that German agents were sowing the seeds which produced the wild rumors and created a false impression of President Wilson's attitude. There has been several significant developments in this connection. Many persons believed the change in the French attitude due to efforts of German agents.

PARIS, Feb. 13.—Whether a general session of the peace conference will be held this week was still doubtful today. At the conclusion of this morning's meeting of the "League of Nations" committee, seven articles of the redrafting of the constitution had been completed.

The question of an international police force proposed by the French had not yet been reached when the committee resumed its session at 3:30 this afternoon.

RYLE MILLER HOME

After having spent about three months in active service at the front with the celebrated National Guard company from Indiana, Pa., a unit of the Iron Division, Ryle Miller is shaking hands with his many friends here the past day or so. Ryle was with the division when it swept the South bank of the Marne free of the Huns and helped chase them from there back of the Vesle river in those memorable days during the latter part of July when the tide of the world war began to turn. After crossing the Vesle he was severely gassed and put out of active service. Mr. Miller is a former erployee of the Kurtz Stationary store and a son of Superintendent Miller of the Kurtz factory.

A "GOOD INDIAN" IN TOWN

John Frampton, the well known Punxsutawney photographer, was a witness at court several days this week. Mr. Frampton is one of the most successful hunters and fishermen to be found in this section and knows more miles of game cover and specially fine trout streams than about any other man in Jefferson county. In fact he is the hunter and fisherman first and really devotes his spare time to the phoographic end of his worries. Like all real nature lovers he is a dead game sport wherever you meet him as his hosts of friends throughout this section of the state will gladly testify any time.

For as you love your country
So am I stuck on thee.

—or—

Thrift Stamps are green
War Savings, blue
Love backed up by saving
Makes our dreams come true.

Oh Valentine, my Valentine,
Love and patriot I combine,
In favoring my suit, to make me bolder,
Uncle Sam has stamped this folder

To little folks, along with love
I send some little gifties;
My Valentine I'm sure you'll be
When you see these nifty thrifties.

—or—

To a little boy (girl) along with love,
I send a little giftie;
My Valentine I'm sure you'll be,
When you see this nifty thrifty.

—or—

(From a man to a maid)

"I could not love thee, dear, so much
Loved I not honor more"——
A gallant lover truly said
On going to the war.

These Saving Stamps I send to thee,
A Victory Valentine,
In them my love and honor
I truly intertwine.

—or—

To a Baby

I'm sending greetings, Baby Mine,
A Thrift Stamp for a Valentine;
I know you'd say, if you could speak,
You'd like another every week!

Of linen sewed with loving care,
And laid away
Against the Day
When thou'lt be mine.
This token of the way I build
To keep the chest for ever filled
Shall bring to you
Love's greeting true—
My Valentine!

MANY CONVERTS AT BAPTIST REVIVAL

The special service for the Sunday school and the young people generally at the First Baptist church last evening was inspiring and very largely attended.

Rev. Smith took for the subject of his sermon "But He was a Leper". In his discourse the preacher pointed out that it is possible for one to be a "prominent" citizen and still be out of harmony with God. His comparisons were forceful and pointed and were very well received.

The work of Rev. Smith at this revival is nightly bearing abundant fruit. Last night's professed conversions were in the neighborhood of twenty.

These meetings will continue all week and likely extend into next week. All who can do so should attend these services.

WAS REAL "GENERAL JAIL DELIVERY;" LAW DEMANDS ONE LIFE AND TOTAL OF 65 YEARS TO EXPIATE CRIMES COMMITTED

The last chapter but one in the life of William "Bush" Brown, the convicted murderer of Walter Moore, was enacted in the court room at 10 o'clock this morning when Judge Corbett, of Brookville, who presided at the trial, called Brown before the Bar for sentence.

When asked if he had anything to say why sentence should not be pronounced Brown stated that he thought he should be given another chance. Judge Corbett replied that he had nothing to do but impose sentence at this time. He thereupon sentenced Brown to death in the electric chair, directing that he be confined in the Clearfield county jail until such time as the governor of the commonwealth shall order his removal to the death house at Rockview for electrocution.

Following imposition of the sentence Brown asked if he would have opportunity to make an appeal to the Board of Pardons and Judge Corbett assured him he would have every opportunity.

In addition to Brown some fifteen other prisoners were haled before Judge Bell for sentence and court house habitues after looking the crowd over decided it was the hardest looking aggregation ever before assembled in the Temple of Justice at any one time, and there was lack of the usual expression of sympathy at the severity of the sentences imposed.

When the death penalty was imposed upon Mr. Brown every person in the crowded court room rose to his feet and it was indeed a sad and solemn scene.

Following this action Judge Bell assumed charge and in his usual brisk, snappy manner announced that the court was now ready to impose sentences. District Attorney Arnold arose and moved that waiting criminals be disposed of.

Antonio Giordino, alias Tony Gargole, who entered a plea of guilty to murder in the second degree for the killing of Andrew Davis at DuBois, when called for sentence and asked if he had anything to say before sentence was imposed, shook his head no. Judge Bell then said: "Antonio Giordino, you have entered a plea of guilty to second degree murder, which the commonwealth has seen fit to accept; while your crime is justly styled second degree, it is so near first degree that we will have to sentence you accordingly. The sentence of the court is that you pay a fine of $1 and costs and undergo imprisonment at labor in the western penitentiary for a term the minimum of which shall be fourteen years and the maximum eighteen years.

Oliver and Alice Sanford the East End colored residents, convicted on three counts of the crime of pandering, were each sentenced to pay a fine of $1 costs of prosecution and undergo imprisoment at labor in the

HERE ON CHARITY MISSION

O. H. Midler, of Bradford, is in Clearfield today in the interest of the Bon Air and Grandview tuberculosis sanitariums, which are located at Bradford and Oil City, respectively. These two institutions have always received patients from the south western end of the county but have never made an effort to get support from this region. Though several people have been making small voluntary contributions there has never been any soliciting done. The plant is to be much enlarged and two new buildings have already been added.

To the extent of their limited resources in these two sanitariums, patients are cared for whether with or without financial means. This means that public contributions are necessary to carry on the work.

The calls for the work done at these institutions have been greatly increased by the influenza epidemic and by returning soldiers. Soldiers whose lungs have been scarred by poisonous gas fall a victim to tuberculosis, and these sanitariums have been called upon to treat many such patients.

While in this community Mr. Miller will call upon a number of our citizens. We bespeak for him an interview and a kindly interest in the institutions he represents.

EXPRESS COMPANY STARTS CAMPAIGN FOR EFFICIENCY

The nation wide campaign inaugurated by the American Railway Express company to bring about better methods of packing and marking express shipments, began today with the first of a series of meetings of express employees to be held at this place during the month of the drive. At convenient periods throughout the day, Agent H. F. Reese called together groups of his co-workers and urged them to put their full force behind the comprehensive campaign now under way and to work with shippers in accomplishing decisive results in bettering the express service.

Vehicle men, transfermen and office employes were each addressed by the agent who made the most urgent appeals for their cooperation and keen interest in the drive. There is room for improvement everywhere, he state. Owing to conditions brought about by the war, he admitted, the express service had not been as good as the company expected to make it. But with this obstacle removed and every expressman doing his part, the way has been cleared for a very marked change for the better.

In urging the men to seek the cooperation of the shippers in the drive, the agent brought to the attention of the drivers the necessity of giving them all the aid possible in bringing their packing and marking methods up to the required standard. It was acknowledged that the manner of packing and marking varies with the comodities, but the question of whether a shipment is in proper condition for shipment and whether it can be carred to its destination, must be left to the judgment of the driver who has been thoroughly instructed on the rules and regulations.

After the "Four Minute Speeches" agent H. F. Reese announced the following as a committee for the "Better Service Campaign:" William Carr, N. M. Innes, A. M. Bumgardner and Miss Hannah Hughes; they represent each branch of the organization and were instructed to keep watch on the conditions of business as it passes thru terminas and to call personally on shippers whose consignments need attention.

The popular idea that a person loses consciousness in the course of a fall from a great height seems to be refuted by the experience of aeronauts. Parachutes, although designed to open after 200 feet, frequently do not open under 1,000 or 1,500 feet, and during this drop the men tied to them are quite conscious.

Evidently Judge Bell believes in making the world, or that part of it we call Clearfield County, safe for Democracy and everything and everybody else, and put his belief into action by handing out some very salty doses to criminals this morning. It is up to every community to take care of its own lawbreakers and dangerous characters and with the action of the Court this morning, Clearfield County has gone part way, at least, with her share of the general purging of the citizenship lists of the nation that is now under way.

VITAL ISSUES DRAWN

"It is fortunate for the future of the American Republic that the issues between the Republican and Democratic parties have become clearly defined upon vital fundamental principles of government. Not since the issue was drawn upon the question of the indissolubility of the Union has there been presented a more clearly defined or more important issue than that presented today.

"The Democratic party stands for Internationalism—the exaltation of world-interests above National interests—the subordination of the interests of America to the interests, or supposed interests, of the aggregate nations of the earh. The Republican party, having absolute confidence in the superiority of American institutions and in the ability of the American people to find the best solutions for social and economic problems, believes that not only the welfare of America but the welfare of the world will be best promoted by leaving this nation free to work out its own destiny, through which it will set an example for emulation by all the rest of the world.

"As the Democratic party would sink the nation in Internationalism, so that party would sink the individual in Socialism. It would paralyze the efforts of the individual, to equalize the supposed interests of the aggregate—attempting to place all upon an equality of reward regardless of differences in effort and accomplishment. The Republican party believes that aggregate advancement is no more nor less than the sum of individual advancement, and that every reasonable inducement must be offered to encourage development of the individual, not at the sacrifice of the rights and interests of other individuals but with ultimate resultant good to all, through the accomplishments of the most capable and most energetic. Discouragement of individual initiative, enterprise and effort, as proposed and practiced by the Democratic party, must inevitably retard the development of the whole. The progress of this nation has been measured by the attainments of its most highly developed individuals in every line of endeavor—its Websters and Lincolns and Roosevelts, its Fultons and Edisons, its Hills and Harrimans, its Morses and Bells, Schwabs, Burbanks, and innumerable other individuals who typify developmet under the stimulating influences of OPPORTUNITY. Socialism measures its attainments in terms of Bergers and Liebnechts, and Trotzkys and Lenines.

"As natural accompaniments of its Internationalistic and Socialistic proclivities, the Democratic party tends toward paternalism, government ownership and free trade. Because of its Nationalism, and in harmony with the spirit of Americanism, the Republican party believes in protection of American producers against unfair competition with cheap products of other lands. It opposes government ownership or operation of industrial enterprise as calculated to destroy initiative and impede progress.

"We shall abandon nationalism when we abandon individualism. We shall adopt internationalism when we adopt communism. We shall cease to have rivalry among nations when we cease to have rivalry among individuals. We shall cease to have contests among nations when we cease to have contests among individuals. We shall have both communism and internationalism when we attempt to set aside the law of the survival of the fittest."

Just Rub Famous Forkola over Throat and Chest—Relieves by Inhalation and Absorption

You simply apply a small quantity of Famous Forkola over the throat, chest and back covering with a warm flannel cloth. The body heat releases the ingredients that are inhaled in the form of vapors, while the penetrating oils and fats are quickly absorbed through the pores, healing and soothing the tired, aching throat and chest. All night long the good work goes on, loosening the phlegm, soothing the inflamed membranes and opening up the air passages.

Go to your druggist and ask for a small jar of Famous Forkola and begin the treatment at once. Thousands have used the Forkola treatment instead of nauseous internal dosing for colds and catarrh, sore throat, bronchitsi and even incipient peumonia.

SHEEP RAISING IN PENNSYLVANIA NOW ON THE INCREASE

The revival in the interest in the sheep raising in Pennsylvania during the past three years has brought about an increase of approximately 60,000 sheep on the farms, and promises to soon place the industry on a basis of twelve years ago when there were over a million sheep in the state.

Figures in 1910 showed that there were 83,074 sheep on the farms of the state, but the industry was then going through a yearly decline that was showing a shortage of approximately three per cent. in numbers each twelve months. The total had been reduced from over a million and each year the decrease followed until it has reached a total of 806,000 as the estimated total sheep in 1916.

Early in 1916 the Pennsylvania Department of Agriculture and other agricultural interests negan a drive for more sheep in Pennsylvania and as a result an actual increase in totals was shown in the first year, the estimated total at the beginning of 1917 being 810,000 sheep. Throughout the year the increased interest in sheep saw the addition of new flocks and the totals for January 1918 were 820,756. During the past year the high price paid for wool and the increasing cost of the sheep brought about more interest than ever before and the total number of sheep now estimated in the state is 862,243.

During the past year the reports show that in fifty-three counties there were increases in the number of sheep as compared with a year ago. One county, Pike, reported a decrease and the other counties showed approximately the same number as January 1918. In many sections sheep were introduced for the first time, but the interest was shown to be growing in all sections with every prospect that it will continue. Washington and Greene counties, the two big sheep centers of the state, showed increases of four and nine per cent. respectively, while in other counties the total increase was represented from one to twenty-five per cent. over a year ago.

In 1910 the value of the 883,074 sheep was estimated at $3,924,144.00 and the value of the wool clip at $1,202,623.00. In 1916 the value of the 806,000 sheep was estimated at $4,352,400.00 and the value of the wool $1,350,531.00. Then came the movement for more sheep, the shortage of wool and the beginning of real growing interest in an industry that could be proserously followed in many sections of the state. The 810,000 sheep in 1917 showed an estimated value of $5,670,000.00, a jump in value per head from $5.40 to $7.00. The value of the wool jumped from thirty-four cents a pound to sixty-two cents a pound with a total value of $2,528,236.00. In 1918 the value per head jumped to $10.65 representing a total value for the 820,756 sheep of $8,747,215.00. The average price of wool went to sixty-seven cents a pound and showed the wool clip value of $2,857,349.00. In two years the value o fthe sheep and the value of the wool has been doubled.

Starting 1919 Pennsylvania has an estimated total of 862,243 sheep. The average value per head on the first of January was $10.90 showing a total value of $9,412,922.00. The finest fleeces of wool ever shown in Pennsylvania were on display at the recent State Farm Products Show at Harrisburg and there is every indication of continued interest in the industry.

He says the Rhine country is beautiful and every hill is covered with grape vines for miles and miles at a stretch.

He says his outfit was sent to Linzig to get some old German trucks and found they were some trucks. Tires of iron, not a bit of rubber on them and his truck kicked and broke a couple of his fingers. He says they have 1400 German trucks to move out of Germany and only six companies to do the work. When they finish this job they will be sent home as these men were all recruited from tank crews. He wouldn't take anything for his experience "over there."

The revival at the West Side Methodist church was well attended last evening and the interest among the young folks is growing daily. Last evening there were eight persons who signified their intention of living a Godly life and accepting Christ as their Master.

This evening the pastor will deliver a sermon the topic of which is the 'Devil's Famous Nine." This will be especoially interesting to the young folks.

The usual song service will precede the regular services.

ODD FELLOWS TO CELEBRATE

Washington, D. C., Feb. 13—Lodges of the Independent Order of Odd Fellows throughout the United States and Canada are actively preparing for the celebration next spring of the centennial anniversary of the order. Founded April 19, 1819, in Baltimore, by Thomas Wildey and four others, the order has become one of the greatest fraternal societies in the world. It is purely an American institution, fully 75 per cent. of its present total membership of more than 2,000,000 members being residents of the United States and Canada.

For Burning Eczema

Greasy salves and ointments should not be applied if good clear skin is wanted. From any druggist for 35c, or $1.00 for large size, get a bottle of Zemo. When applied as directed it effectively removes eczema, quickly stops itching, and heals skin troubles, also sores, burns, wounds and chafing. It penetrates, cleanses and soothes. Zemo is a clean, dependable and inexpensive, antiseptic liquid. Try it, as we believe nothing you have ever used is as effective and satisfying.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

Isaac Black of North Pine street received an envelope today from the dead letter branch of the New York post office in which was enclosed a letter that he had mailed to his son, Dorsey A. Black who is with the A. E. F. in France. Across the face of the enclosed envelope was written "Wounded 9|29—A. P. O. Tours: n. c.—10|28." Mr. and Mrs. Black are somewhat mystified at the receipt of this letter as in the last letter they had from their son, dated November 28th, he mentioned having been in the hospital with an attack of the grippe but said nothing about being wounded.

Mrs. S. M. Bickford of Lock Haven, Pa., is the guest of Mr. and Mrs. Webb Karstetter on South Filbert street.

This evening an interesting and hotly contested game will be bowled on the local alleys when the C. R. office team clashes with the garage team.

CORP. FINK PRAISES SALVATION ARMY

Camp Merritt, N. J.

Dear Mother

Well here we are again in the good old U. S. A. and it will be some time before they get me away again.

We had a fine time in New York city. Just as soon as the people saw the ship coming they came out to meet us with a band all kind of good eats. The Red Cross and Salvation Army, the K. of C. and the Y. M. C. A. gave us any thing that a poor hungry doughboy wanted to eat. The Salvation army sure has done its bit for the soldiers of the A. E. F. They were right up there where the big German guns were tearing hell out of everything they served the boys with hot chocolate and eats. I know of many of the boys who have passed the big drum up on the street corner and refused to pitch a nickel on it who would now give them the last dollar they own. Well as news is scarce I guess I will close for this time. I think I will go to the city tonight.

HARRISBURG MAN HERE NO ADJUSTMENT AS YET

So far as can be learned nothing satisfactory resuted from the meeting on Tuesday night between the committee representing the local public steam consumers, the officers of the Penn Public Service corporation and Mr. Ehler of the State Public Service commission, of Harrisburg. The session was held in the council chamber of the Public building and lasted from 8 till 12 o'clock.

As might have been expected the corporation was prepared for the meeting and was ready to answer questions. The committee could not present the consumers' side to the best advantage because the consumers themselves in a number of instances failed to hand over the data asked for, and some others who did turn over a report did not have it complete. A proposition was made by the Penn Public Service corporation as a means of reaching an adjustment. It will be reported by the committee to the consumers at a meeting to be called at an early date. —Philipsburg Journal.

There's no use suffering from the awful agony of lame back. Don't wait till it "passes off." It only comes back. Find the cause and stop it. Diseased conditions of kidneys are usually indicated by stiff lame backs and other wrenching pains, which are nature's signals for help!

Here's the remedy. When you feel the first twinges of pain or experience any of these symptoms, get busy at once. Go to your druggist and get a box of the pure, original GOLD MEDAL Haarlem Oil Capsules, imported fresh every month from the laboratories in Haarlem, Holland. Pleasant and easy to take, they instantly attack the poisonous germs clogging your system and bring quick relief.

BRONCHIAL TROUBLE FOR 16 YEARS, AND COUGHED CONSTANTLY

Then Mrs. Crawshaw stopped her cough so quickly it alarmed her.

"I had suffered with lung trouble, bronchial trouble and asthma for 16 years. In January, 1904, I had an unusually severe spell, resulting in pneumonia and was confined to my bed for 4 months. Then I began to mend, but my cough never left me.

The following October, I tried Milks Emulsion. After taking it a few days my cough gave way, and ceased entirely after taking another bottle—so sudden, in fact, that I became alarmed. Getting over my fear, I took 6 bottles more. For 9 months previous I had coughed night and day, but my cough ceased entirely. For 16 years I have had the best medical assistance and used all kinds of medicines until I became skeptical. But the results from Milks Emulsion were nothing short of marvelous."—Mrs. W. S. Crawshaw, 1436 Grand Ave., Des Moines, Iowa.

For any quick results in bronchial or throat troubles, coughs, or hard colds, Milks Emulsion is really remarkable. The first dose helps to build up and strengthen the tone of the tissues.

Milks Emulsion is a pleasant, nutritious and corrective medicine. It relieves constipation, natural bowel action, together with all need of pills and purgatives. It promotes appetite and quickens the digestive organs in shape to assimilate food. As a builder of body strength Milks Emulsion is highly recommended to run-down nervous people, and it has produced amazing results in many cases of asthma, bronchitis and tuberculosis of the throat. Stomach trouble and indigestion are promptly relieved—usually from the first day.

Milks Emulsion is the only solid emulsion made, and is palatable that it is eaten with a spoon like ice cream. A truly wonderful medicine for weak, sickly children.

No matter how severe your case, you are urged to try Milks Emulsion under this guarantee—Take six bottles home with you, use it according to directions and if not satisfied with the results, your money will be promptly refunded. Price 60c and $1.20 per bottle. The Milks Emulsion Co., Terre Haute, Ind. Sold and guaranteed by Stewarts Drug Store.

SCHOOL NOTES

Wednesday morning after opening exercises in chapel Dr. Reeves addressed the students on saving and banking. This talk will probably influence many to open accounts in the School Savings Bank which was reopened this week.

An unsuccessful attempt to move the cannon in the rear of the High School to the front was made Wednesday evening by the class of 1918.

The basket ball team journeys to Altoona Friday to play the Altoona High School. Clearfield High is not worried as to the result of the game, after winning from such teams as Williamsport and Brookville.

The High School Breeze is rounding into shape under the direction of Editor Harry P. Bridge, Jr., and Mr. Van Osten. It will probably appear about May 20th. It will have little of sports or social activities, as they were few and far between, but this deficiency will be made up in the form of original stories, jokes, etc.
